Introduction

Patrona Underwriting Limited FLEXI-HOME POLICY DOCUMENT

(Underwritten by Gefion Insurance A/S)

Contract of Insurance

This policy has been arranged by Patrona Underwriting Limited and is underwritten by Gefion Insurance A/S. This is a contract between **You** and **Us**. The contract of insurance consists of two documents:

- a) A policy document that details the extent of cover applying to each of the policy sections as well as the policy conditions and exceptions; and
- b) A **Schedule** that includes details of the risk address, operative sections and clauses, cover level applying, the **Sums Insured** and the **Period of Insurance**.

Under the relevant European and Irish legal provision, the parties to this contract of insurance are free to choose the law applicable to the contract. **We** propose that Irish Law governs this contract.

Please read these documents carefully. If they do not meet **Your** requirements or if **You** have any queries regarding the cover or terms and conditions, please contact **Your** insurance broker or intermediary.

We will insure **You** under those sections and for the items shown in the **Schedule** as operative during any **Period of Insurance** for which **We** have accepted **Your** premium provided all the terms and conditions of the policy have been met.

The policy, **Schedule** and any **Endorsements** should be read as if they were one document and any word or expression to which a specific meaning has been given in any part of the contract shall have the same meaning wherever it appears.

The Statement of Facts is a record of the information provided by **You** and is the factual basis of this contract.

This document completed on **your** behalf by an Insurance Broker or intermediary is a record of all relevant information **you** gave and declarations made by **you** at the time the insurance was arranged and on which **we** have relied when agreeing to offer this Contract of **home** insurance.

If **you** do not give **us** full and accurate information of **material facts** at the start, and tell **us** about changes, this Contract of **home** insurance may no longer be valid and **we** may cancel **your** policy and/or refuse to deal with any claim.

Important Things you should know

1. Important Information

Please read this policy document and the **Schedule**, (including endorsements) very carefully. Together with the information **you** gave **us** in the Proposal Form / Statement of Fact and declarations that **you** have made, they form the contract of **your** home insurance. **You** should pay particular attention to the general exclusions, general conditions and any **endorsements** that apply.

Please tell your Insurance Broker immediately if **you** have any questions, if the cover does not meet **your** needs or if any part of **your** insurance documentation is incorrect.

2. Cooling-Off Period / Right To Cancel

You, the consumer, have the right to cancel this policy within 14 days of inception or renewal date without penalty and without giving any reason. To do this, **you** must advise **your** Insurance Broker. If **you** choose to cancel this policy during the Cooling-Off period and as long as **you** haven't made any claims, **we** will work out the premium for the period **we** have been insuring **you** and refund the balance.

Home Protection Tips

Storm

To minimise damage from storms, **we** suggest the following:

- Mineral felt roofs have a limited life span and are subject to wear and tear and deterioration over time. Check the roof covering at regular intervals and replace the felt where there are signs of deterioration. Remember, **your** Policy does not cover the maintenance costs involved in repairing or replacing the roof. The Policy specifically excludes damage caused by wear and tear and gradual deterioration.
- Ensure **your** tiles and guttering are secure.
- Check that the gutters and drains are not blocked.
- If a storm is forecast, make sure all gates are bolted. Put any garden furniture, lawnmowers or plant pots in a garden shed and lock it.

Fire Prevention

Every year many people are killed or injured and **homes** are destroyed as a result of domestic fires.

You can reduce the risk of fire by taking the following precautions:

- Do not overload an electrical point. Unplug all appliances when not in use.
- Repair faulty wiring, frayed leads and loose plugs.
- All fires and heaters should have a secure fireguard. Never leave the room without having a guard in front of the fire.
- Chimneys should be swept at least once a year.
- Avoid careless smoking, especially in bedrooms.
- Matches should be kept well away from children.
- Close all internal doors when going to bed.
- Keep heaters away from furniture, curtains and bedclothes.
- Never move or refuel an oil or gas heater while it is lighting.
- Keep all electrical flexes off cooker rings and hobs.
- Be especially careful with chip pans, they should never be left unattended on a lighted cooker.
- You should install at least two smoke detectors in your house. Smoke detectors should be tested regularly to ensure they are working properly. Change the batteries at least twice a year.
- All Chimneys and/or flues to solid fuel stoves and open fires should be kept in a good state of repair.
- All solid fuel stoves should be installed by a professional, qualified & certified installation company.

Water Damage

There are various weather hazards which **you** cannot avoid but against which **you** can protect your **home**.

- Lag pipes and water tanks wherever possible.
- Leave the underside of tanks free to ensure rising warmth can reach them.
- Replace washers on dripping taps.

Burglary prevention

Unfortunately, theft has become part of everyday life in many areas. Most thieves are opportunists who commit crimes when they spot an easily entered home. Such opportunities can be removed by fitting and using good quality locks on doors and windows and by installing an approved alarm system.

- All external doors should be fitted with mortice deadlocks (or their equivalent) and **you** should lock these doors even if **you** are out for just a short time.
- All patio doors should be fitted with key-operated patio door locks. The keys should be removable.
- All ground floor windows and other accessible windows, fanlights and rooflights should be fitted with security locks and put into full and effective operation.

Before going on holidays

- If **you** have an automatic light switch installed, set it to operate at the times **you** normally switch the lights on.
- Cancel all deliveries e.g. milk, newspapers etc.
- Ask a neighbour to pop in from time to time to check on the house and to remove post from the letterbox/porch.
- Inform **your** local Garda station that **you** will be away.
- Check that all windows and doors are securely locked.
- Set **your** burglar alarm, smoke detectors and other alarm systems - check that the batteries in all alarms are working.
